DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks, filed 11/04/2005, with respect to claims 1-11, 13-16, and 17-20 have been fully considered and are persuasive. The rejection of claims 1-11, 13-16, and 17-20 has been withdrawn.
2. Regarding Claims 1, 18, and 20, the examiner recognizes that as the applicant has discussed the object of Cho's invention was merely a system that detects and treats sleep respiratory events, but does not differentiate between how they are induced which could be caused by either CSA or by CHF. The applicant has disclosed a system which is capable of differentiating how CSR is induced, either by CSA or by CHF. El-Solh (US 6839581) discloses a system, which is capable of differentiating between CSR induced by either CSA, or by CHF however his system utilizes Oximetry reading and does not rely upon signals received from a implanted ICG or Cardiac Defibrillator.

Allowable Subject Matter

3. Claims 1-20 allowed.
4. The following is an examiner's statement of reasons for allowance: Regarding claims 1-20, for the reasons stated above in the section entitled Response to Arguments, the referenced prior art does not anticipate the applicants invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
